

# KASHMIRA PATIL

## Applied AI & Analytics Engineer | Analytics & Intelligent Systems

Pune, Maharashtra | [kashmiraspatil@gmail.com](mailto:kashmiraspatil@gmail.com) | +919156374783

[Technical Portfolio](#) | [GitHub Profile](#) | [Kaggle Profile](#) | [LinkedIn Profile](#) | [Medium Blog](#)

---

## EDUCATION

**B.Tech Computer Science — AI & Data Science** | MIT World Peace University, Pune | *Expected 2027* | CGPA: 8.56

*Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Statistics, Software Engineering, Data Science with R Programming*

---

## TECHNICAL SKILLS

**Languages:** Python, R, SQL, Java

**Analytics:** Pandas, NumPy, Plotly, Tableau, Power BI, Data Analysis & Visualisation, Feature Engineering

**AI/ML:** Scikit-Learn, TensorFlow, PyTorch, NLP, Computer Vision

**Software Engineering:** Object-Oriented Programming, REST APIs, Software Design

**Tools:** Docker, Git, Postman, MySQL, MS Office Suite – PowerPoint & Excel

---

## EXPERIENCE

### SDE Intern — Kash Precisions (Precision Engineering & Manufacturing)

*Jun – Jul 2025*

- Developed cheque generation and financial record management software supporting multiple bank formats and configurable print layouts
- Built FastAPI + MySQL backend for debtor-creditor ledger management, transaction tracking, and financial record processing
- Automated financial workflows and centralised record management, reducing manual processing effort by **80%**

---

## PROJECTS

### BoardSight — Multimodal Meeting Intelligence & Workflow Automation Platform

*Feb 2026*

*FastAPI | NLP | Computer Vision | Workflow Automation*

- Developed multimodal analytics pipeline for speaker, decision, and visual artifact analysis with **6.4s median processing latency**
- Designed workflow generation engine producing **12 workflow stages** and **90 prioritized execution tasks** per meeting run
- Built scalable decision- support workflows transforming meeting data into structured insights and execution-ready reports

### Credit Risk Intelligence System — AI-Powered Credit Risk Analytics Platform

*May 2026*

*Python | XGBoost | SHAP | Streamlit | Plotly*

- Developed credit risk analysis platform using **150,000 borrower records**, achieving **94% classification accuracy** & **0.867 ROC-AUC**
- Built SHAP-based explainability pipelines and borrower risk segmentation to support transparent credit assessment and portfolio analysis
- Designed interactive Streamlit dashboards with Plotly visualisations for portfolio monitoring and decision support

### Marine Organism Detection – Edge AI system for Real-Time Microscopy Analysis

*Dec 2025*

*TensorFlow | Raspberry Pi | Embedded Linux | Computer Vision*

- Designed and deployed real-time CV pipeline for marine organism classification on Raspberry Pi under edge-computing constraints
- Optimized TensorFlow models achieving **96.2% F1-score**, **80.9% mean IoU**, and **89.3% Dice similarity** on evaluation datasets
- Won **Smart India Hackathon 2025 (National)** by delivering an end-to-end edge AI platform for real-time microscopy analysis

---

## PUBLICATIONS — IEEE

[1] **CipherStack: A Dual-Layered Encryption Architecture Using Historical Rotor Logic and Polymorphic Encoding** | ICCES 2025

[2] **A Hybrid Approach to Fake Job Detection Using NLP and Machine Learning** | ICTBIG 2025

---

## LEADERSHIP

### Career Development Centre (CDC Student Body) – Strategic and Content Head

- Led strategic planning, operations, and execution for campus-wide engagement initiatives and organizational activities
- Managed a team of 20+ writers while coordinating content strategy and stakeholder engagement across organisational initiatives
- Coordinated cross-functional teams for flagship initiatives, driving stakeholder communication, operations planning, and execution

---

## ACHIEVEMENTS

**National Winner, Smart India Hackathon 2025** | Winner, HackMIT-WPU 2025 (350+ teams) | MIT-WPU Student Achiever Award (2025, 2026) | Winner, CACC Coders' Arena | State-Level Lawn Tennis Champion (Women's Open)
