

KASHMIRA PATIL

Software Engineer | Data & AI Systems | Backend

Pune, Maharashtra | [Kashmira Patil - LinkedIn](#) | [Kashmira Patil - GitHub](#) | +919156374783 | kashmiraspatil@gmail.com

ACHIEVEMENTS

Winner — Smart India Hackathon 2025 (Hardware) | Winner — HackMIT 2025 (350+ teams) | MIT-WPU Student Achiever Award 2025, 2026
Winner — CACC Coders' Arena | Winner — State Level Vishwanath Sports Meet – Lawn Tennis Champion (Women's Open Category)

EDUCATION

B.Tech Computer Science — AI & Data Science | MIT World Peace University, Pune | *Expected 2027* | CGPA: 8.56

TECHNICAL SKILLS

AI & Data: NLP, Graph Neural Networks, Computer Vision, Feature Engineering

Frameworks & Tools: PyTorch, FastAPI, OpenCV, MediaPipe, Docker, Git, MySQL, Selenium, Jira

Languages: Python, Java, C++, SQL

Backend & Systems: REST APIs, SpringBoot, Data Pipelines, Concurrency

PROJECTS

ZeroTrace — Secure Distributed Messaging & Threat Detection System

Mar 2026

Java | REST APIs | Spring Boot | Encryption | Threat Detection | TTL | P2P

- Designed hybrid architecture combining centralized authentication + peer-to-peer communication
- Built encryption pipeline (RSA + AES + SHA-256) ensuring confidentiality, integrity, and secure key exchange
- Developed multi-threaded backend system for concurrent message processing

BoardSight — Vision-Driven Meeting Analytics & Decision Traceability

Feb 2026

Computer Vision | NLP | PyTorch | OpenCV | MediaPipe | FastAPI

- Built a system combining computer vision and NLP to track speakers and extract key decisions from meeting recordings
- Achieved ~90% speaker detection accuracy with $\leq 1s$ /frame latency using OpenCV + MediaPipe
- Designed decision-tracking pipeline to generate structured summaries and maintain audit logs using SHA-256 hashing

QForce — Financial Data Analytics & Prediction System

Oct 2025

GNN | FastAPIs | Python | React | S&P500 | Quant Modelling

- Modelled financial data using graph-based ML, improving prediction accuracy (MAPE $\downarrow$ 19%)
- Built real-time inference pipeline for scalable predictions
- Analysed market trends to support data-driven decision-making

LEADERSHIP

Career Development Centre (CDC Student Body) — Strategic and Content Head

- Led strategy and operations for student organization, driving engagement initiatives and optimizing event execution across the campus
- Managed team of 20+ writers, overseeing content strategy and communication workflows
- Acted as operational backbone during leadership gaps, ensuring continuity of planning, execution, and coordination

INTERNSHIP EXPERIENCE

SDE Intern — Kash Precisions

Jun – Jul 2025

- Built automated data processing pipeline, reducing processing time by 80%
- Developed FastAPI + MySQL backend for real-time transaction handling
- Optimized asynchronous workflows to improve system throughput and latency
